

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. As a stay-at-home mom, it is very important to me that I not receive calls from solicitors. I am home most of the day, and I honestly feel that these cumbersome calls disrupt my life and the daily life of my family. It is critical that this law stays in effect. We use to receive about 20 calls per week, and now we only receive about 2 calls (if that) per week. It's wonderful. Please keep the Telephone Privacy program in effect. Thank you, Monica Clark
